# Electric Showers

## T150Z

### Thermostatic Electric Shower

Everyone should be free to enjoy a safe, invigorating shower experience. With its functional design, simple controls and advanced safety features, the T150Z brings total peace of mind for all your family.

#### Thermostatic control

- constantly regulated temperature gives the user more precise control and safer showering

#### Adjustable timed shutdown

- set the shower to automatically shutdown after a pre-selected time

#### Adjustable maximum temperature stop

- reduces the risk of accidentally turning the temperature too high

#### Double temperature protection

- the outlet sensor activates to reduce the heating power if the temperature gets too hot and the second sensor turns off all the heating power under extreme operating conditions

#### Push button start/stop

- to select your favourite shower setting every time

#### Phased shutdown

- when the shower is turned off, the water continues to run for a few seconds to flush out preheated water before stopping completely

#### 'Low pressure' indicator

- operates when the water pressure is insufficient

#### Rub clean showerhead

- 5 spray pattern
